In support of Cyber Resilience Week #DLCRWeek

London Digital Security Centre
In partnership with East Midlands Chamber (Derbyshire, Nottinghamshire, Leicestershire)

Speaker information, in order of appearance:

Andy Watterson
Business Crime Manager, East Midlands Chamber (Derbyshire, Nottinghamshire, Leicestershire)

Andy is a BCC Fellow for the Digital Economy, supporting the Chamber Network's national policy work around Digital Connectivity, Skills, and Cyber Security.

John Unsworth
Chief Executive, London Digital Security Centre

John is a highly regarded financial and cybercrime intelligence professional. He has 20+ years' experience in successfully leading national intelligence activities in the UK aimed at identifying, preventing and detecting criminal activities and targeting financial and cybercrime threats committed by Organised Crime Groups. John has recently completed a Masters degree in Criminology at Cambridge University.

Mike Kapur
Founder and Chief Operating Officer, Signum Corporate Communications Ltd

In 2002 Mike founded Signum Corporate Communications Ltd where he retains responsibility for ensuring that all aspects of company strategy are implemented and performance managed. He has 20 successful years of Board Room experience in both private and public sector organisations recognised in his appointment in 2013 to one of the Confederation of British Industry's (CBI) most important National roles as Head of its Enterprise Forum.

Phil Lewis
Chief Operating Officer (COO), Alliantist

IOD Chartered Director. Results and risk focused leader with drive and board level experience needed to deliver sales and profit improvement and value creation in Information Security and Homeland Security markets.

MAYOR OF LONDON

Securing Your Business in the Digital Age

Richard De Vere **Principal Consultant, The Antisocial Engineer**

Richard has an extensive background in penetration testing and social engineering assessments, including 'red team' exercises and information gathering assessments for financial institutions and some of the UK's largest companies.

Nick Wilding **General Manager, Cyber Resilience, AXELOS Global Best Practice**

AXELOS is a UK Government and Capita plc. joint venture. Nick's team is responsible for RESILIA – a cyber resilience best practice portfolio that includes certified training, awareness learning, leadership engagement and a cyber maturity assessment tool. RESILIA is designed to put people at the centre of cyber resilience strategy, enabling them to effectively recognize, respond to and recover from cyber-attacks.

Chris Pinder **Business Development Manager, IASME Consortium Ltd**

Chris has been involved with the wider security sector for over 20 years, the last few of which have been increasingly focused on cyber security. Since 2016, Chris has been Business Development Manager with IASME, a leading Accreditation Body appointed for assessing and certifying against Cyber Essentials.

Kevin Duffey **Managing Director, Cyber Rescue**

Cyber Rescue is a European consultancy that specialises in helping business owners lead recovery from cyber-attack; CEOs and commercial leaders need to prepare for the cascade of consequences that can follow a cyber-attack.

Nicola Whiting **COO, Titania**

Titania is an award-winning UK technology SME. Since joining in 2011, Nicola has overseen a period of intense growth, helping drive Titania from a three-person start-up to a multi-million turnover fast growth business. Today Titania's innovative configuration auditing software serves many industries in over 80 countries, defending both the UK and its allies' cyber borders.
